Admiral Krantz has been appointed to succeed Jauves.

Luis Ulbach, the well-known novelist died to-day.

The *Clarion*, a supporter of the League, published the letter of Atchinoff, in which he protested against the French bombarding the position held by the expedition Sagallo, complained bitterly of Governor Obek who refused to transmit his telegrams to the Russian Government.

Berlin 16th—The German *Gazette* states that the Prussian Minister, Gosseler, wishes to hand in his portfolio of Public Instruction and Scholy that of Finance.

Rome 16th—The Pope gave audience to Bishop Keane, who was appointed Rector of the Catholic University establisl ed in Washington. On Wednesday, after a short audience the Statutes were approved.

Berlin 17th—Emperor William in his interview with the Central Committee of Merchants stated that the object of his visit to the European Courts was to sustain peace—the only foundation for commercial prosperity. He added, that the result of his visit would be peace for many years.

Belgium, 17th—The death of the eminent statistician, M. Reclerg, at the age of 93, was announced to-day.

Berlin, 17th—The *Vossiche Zeitung* states that it is to be regretted that the question on the other side of the ocean should be allowed to assume such proportions, and adds that it has been soley due to mistakes committed by German officials. It adds that the next conference will simply place matters on a more dangerous footing.

Washington, 17th—The Naval Commission, presided over by Admiral Jouett, received orders to examine the Monitors finding all unarmed.

New Pork, 17th—Minister Tracey has given instructions to send in a report of the state of war vessels, cost of repairing, and time required to have them ready for action.

London 17th—Arrangements for the fight with gloves between Mitchell and Smith concluded. The prize is for £300 and championship of England.

San Francisco 17th—The commissioner of the United States in the Melbourne Exhibition writes under date Feb. 7th that public opinion in Sydney is is very excited about the conduct of Germans towards Americans in the Samoa question. That the Hobart Town Commission have determend to send a petition to Queen Victoria who view with anxiety the course that affairs are taking in Samoa. They maintain that old treaties should be respected and new ones made as the case may require, always guaranteeing the independence of Samoa.

They consider that the authority assumed by foreign powers on the South Pacific is a threatening meance towards Australia, and that England should manifest a more pointed policy in this question. The day may not be far distant when England, aided by the States may be called on by her colonies to preserve their independence.

London 19th—A fall in copper yesterday owing to rumours that the Syndicate had failed to comply with their engagements and that the Comptoir d'Escompte had given notice to several companies that they did not consider themselves obliged by their statutes to comply with their engagements.

Paris 19th—To-day funeral of Jauvas took place. Discourses were pronounced by Tirard, Freycinet, and Dupres. General MacMahon was present and received a warm ovation from public.

Rome 19th—Crispi has consented to remain in office, owing to the difficulties which had induced him to resign having been arranged.

London 19th. Sir Julian Pauncefort, the new Brittannic Minister to the U. States Starts on the 13th prox. for America.

Paris, 18th—The rancour of the Radicals on account of the Aumale decree having been annulled is expressed in the hope of a monarchical revolution which has to reckon with the defeated ambition of many Frenchmen. Notwithstanding the attenuating circumstances in favor of the Duke, of his splendid gift of the Chateau of Chantilly and his military services, the decree of expulsion would not have been annulled if it had not been looked upon as a ministerial proof of hostility towards Boulanger who ordered the name of Aumale to be removed from the military list.

Antoine, who resigned his seat in the German Reichstag is expected to arrive tomorrow; he will become naturalized as a French citizen with the object of becoming a candidate at the next election in opposition to Boulanger.

Cairo, 19th—Capt. Weissman, chief of the German expedition to rescue Emin Pasha, started to-day for Zanzibar.

CENTROS AGRICOLAS.

It is to be hoped that on the meeting of the Provincial Legislature of Buenos Ayres in May next, a change will be made in the Centro Agricola law, so that the Mortgage Bank will cease to be the medium of the veriest wild-cat speculation ever known in this or any other country. Millions and tens of millions of cedulas have been already given on pieces of land dubbed by the La Plata law agricultural centres, but which in reality have no other "pobladores" or agriculturists than the "biscachas." If the Centro Agricola law only gave cedulas to the colonists or farmers who settle down on a couple of hundred acres, and who, with these cedulas pay the owners of the land for their little homestead, all would be well; but this unfortunate law seems to have been framed to protect the speculator and not the farmer, and hence it is that we see not the maize and wheat and alfalfa crowding the market from the Centros Agricolas, but millions of cedulas flooding the Bolsa, creating an artificial wealth, and a most unexampled extravagance which must end in crisis and ruin.

Better for the Mortgage Bank to give to every pauper immigrant in the Asilo of Immigrantes a thousand cedulas Series W. wherewith to begin life and make a start on, than to hand to one of those fashionable land speculators a million of Cedulas Series O. on a few leagues of land that under the highest, the grandest, the most scientific agriculture could never pay the interest on even a tenth of the mortgage. If the object of the present Centro Agricola law were to smash the Mortgage Bank before the next Presidential election, then we could understand the genius of the man who framed it; but it is a melancholy thing to see a fine Institution like the Mortgage Bank brought to blue ruin by such a trick.

That a Centro Agricola law, properly framed and cautiously administered, would help agriculture and benefit the country we freely admit. Take for instance a landowner along any of our railways, who wishes to cut up his land in farms of 200 acres. He looks out for chacareros or colonists and he sells to them on the best terms he can get. The purchaser or farmer on buying the farm applies to the Mortgage Bank and gets cedulas for half the purchase money, which he pays over to the proprietor. Here is a fair, legitimate business, as it is to be supposed the farmer when he gets his crops in, will be able to pay the interest and amortization to the Bank; but the business going on is conducted on far different rules. A party looks out for a piece of land suitable according to the law for a 'centro' agricola; he pays the owner say 60, or 70,000 Nats per league, and then goes to the Mortgage Bank and mortgages it as a centro for at least 135,000 or 150,000 Nats per league. He takes the cedulas to the Bolsa and sells them, buys a fine house, carriage, horses etc.; meanwhile he has to get rid of his responsibility for the service of the mortgage which he does through the agency of an Auctioneer, calls an auction, sells the land subject to the mortgage to people who have not the price of a pair o' boots; the poorer they look the better. No money is needed for the transaction, the land is sold at so much the hectare, the mortgage is subdivided and transferred, and as a matter of course the Mortgage Bank has to pay its coupons on the cedulas granted on the land, and must wait probably till St. Tibbs' Eve to get a farthing from the pauper agriculturist who owns nothing, holds nothing, save a chacra mortgaged to the skies, and can pay nothing. Let us all hope that in May this law will be changed, and that in the interim no more Centro Agricola Cedulas will be issued.

CRISIS IN PARIS.

The telegrams announce another stupendous fall in the shares of the Comptoir d'Escompte. Prices are now down to 120, for the 500 frcs. share, which a couple of months ago was selling on the Paris Bourse at 900 frcs. Such gigantic losses naturally cause a nervous feeling in this market which is so intimately connected with that of France, and exchange on Paris has risen to 5 frcs., owing to the scarcity of takers.

The causes which have produced the present financial panic in Paris are not very remote. The Panama Canal bubble, and the sudden fall in copper, coupled with the unsteady political feeling owing to the election of Boulanger, have all contributed towards the disaster. A full month ago the great French copper Syndicate was beginning to shew weakness and the remarks of the London *Economist* at that time show how correctly our Lonnon colleague foresaw the crisis. The *Economist* said:

"The French Copper Syndicate still continues to show, despite evident signs of weakness, much pertinacity in attempting to uphold the price of copper and the market for copper mining shares. The friends or supporters of the Syndicate are also active in putting forward arguments to show that the Syndicate's operations have been conducted upon a statistical basis; that success has only been deferred by temporary influences; and that is beneficial to the copper trade. The last plea is too fallacious to need any refutation; but the two other arguments may be worth examination. According to a recent correspondent of the *Times*, by whom the Copper Syndicate is strenuously supported, the statistical position of copper is really not unfavourable, although it appears so, for he estimates that the consumption in 1888 was certainly not less than, say, 220,000 tons, or about the same as in the preceding year. For two reasons, we are disposed to consider this a high estimate. In the first place, there can be no doubt that the high price of copper during last year restricted consumption in all directions, and stimulated the use of substitutes wherever possible. At the same time, consumers have bought for immediate requirements only, and have not been at all disposed to increase their small stocks of the metal, since they have had no belief in the stability of the Syndicate, but have constantly been expecting its downfall, and, as a consequence, a heavy fall in the price of copper. The combined effect of these influences probably more than offset the stimulus given to consumption in 1888 by the increased activity in trade.

"The arguments of the *Times'* correspondent fall, therefore, to the ground, and we are left, as stated above, with a probable output in 1889 of 290,000 tons, as compared with an estimated consumption in 1888 of only 220,000 tons, leaving an excess supply of 70,000 tons, over and above a stock in the hands of the Syndicate of 130,000 tons. It is evident, therefore, how greatly consumption will have to increase in order to establish the equilibrium between demand and supply. Altogether, it is quite clear that from the point of view of the Syndicate the statisca position of copper is extremely unfavourable, and this of itself, apart from any possible pecuniary difficulties, would be sufficient to make the Syndicate anxious to unload upon the public if it were possible to do so. But we believe the public, for once, are too well informed as to the true position of affairs to give the Syndicate any chance of thus relieving itself at their expense of what is becoming an intolerable burden."

LONDON LETTER.

(From our own Correspondent.)

DOROTHY IN THE DIVORCE COURT.

St. Valentine's Day.

The name of Dorothy has lost its sweetness for ever. Like Tabitha, Melissa, Ruth or Phyllis, it once reminded us of lavender and linen-sheets, spring flowers, honeysuckles, oaken floors and oriel windows of garden and lawn, hollyhocks, roses, peacocks, sun-dials, and a "quack quack here" and a "ba ba there" "here a moo and there a moo," and of every emblem and abode of purity and rustic virtues. Who has not thought of these delights when listening to Marie Tempest in "Dorothy" at the Prince of Wales's theatre? So arch was she so winning, so thoroughly honest, not even the lascivious strains of the famous waltz in that opera could taint the illusion excited by her impersonation of the spirited but innocent daughter of the old English Squire. Mr Cellier's music must have gradually corrupted "Dorothy"—once a Miss Etherington, a promising student of the vocal art at the Royal Academy of Music. It was there she met a fellow student, a young Mr Izard, who fell in love with her and she with him. They married. They spent the loveliest of honeymoons at a retired farm house in Devonshire. They afterwards lived in married bliss in a modest home at Brixton. In an evil hour Mrs Izard took to the stage and chose the name of "Marie Tempest." She created "Dorothy." She in due coure earned £25 a week, kept her own banking account, spent her own money on herself, and endured her husband fairly well for some time, until one morning, with many sobs and tears, she told him she loved another. Poor good Mr. Izard, a musician and an organist, and well trained in all the steps of catechismal morals, admonished his wife, cautioned her against sin, and even agreed to her condition of occupying a separate apartment rather than their "happy home" should be broken up. But of course she had sinned, and matters went from bad to worse, and finally she went off to America with Mr Henry John Leslie, a Jew, and manager and lessee of the Prince of Wales' Theatre He had taken a fancy to "Dorothy" and long previously had persuaded the Izards to remove from Brixton nearer to the theatre, as he was afraid Mrs Izard might take cold in going and coming so far in this bleak climate. Mr Leslie was generous enough to advance to the young couple £200 to purchase furniture for their new house in Carlisle Mansions, and he made Mrs Izard a present of a grand pianoforte and sundry articles of vertu to adorn her new abode. This liberality did appear strange to the organist; but in the early period of Mr Leslie's attentions to his wife he professed to have perfect faith in her and even allowed her in company with her sister to be escorted to Paris and to Brighton by Mr Leslie. In the divorce case which has just been decided by Mr. Justice Butt and a jury, a chambermaid gave evidence that "Dorothy" and Mr. Leslie had also stayed at the Grosvenor hotel as Mr and Mrs Leslie. The poor organist either knew or pretended to know nothing of all this; but when he was told that his wife and Leslie had been seen out driving together in Oxford Street, he did make a mild remonstrance and suggested that Mr Leslie should not pay such frequent visits to "Dorothy's" dressing room; and indeed the young man insisted that Mr Leslie should have no admission except on business. Leslie replied that the theatre was his and he should go where he liked, and if Mr Izard objected he "had his remedy" He had also before excused his liberality in presents to Mrs Izard on the specious plea that he was indebted to her for much more than the value of those presents, as it was she who maintained the popularity of the opera in which she played.

When the man Leslie spoke so jauntily of Izard "having his remedy" little could he have thought that when the case was put into the hands of a highly indignant judge, Mr Justice Butt, and a moral English jury, the "remedy" was not only a rule "nisi" but £5000 damages and costs. Since the verdict, Mario Tempest played "Dorothy" at a "matinee." You could not get in for the crowd of virtuous English ladies who went to see her.

BRITISH IMMMIGRANTS.

The charitable enthusiasm which so nobly characterised all the British residents during last month seems fairly to have died out; and notwithstanding the notice published in these columns on Sunday that 250 English people were again inmates of the Immigrants' Hotel, scarcely one of our city residents went down to see them. They are not quite so destitute as the Dresden shipload, nor is the Hotel quite so crowded, consequently their fate is not quite so hard; nevertheless they should not be neglected by their more opulent fellow countrymen.

On Sunday Mr. Gartland, in company with Mr. Thomas Murphy, visited them, reading aloud the conditions on which he proposed to form the colony at Naposta. They one and all admitted that nothing could be fairer or more liberal, and they would have started there and then but that the Government official refused to supply the tents, bedding and cooking utensils necessary, and without which life in the open camp would mean simply death to most of them.

A list was made out for Sr. Sundblad, the Immigration Commissioner, who, in company with Mr. F. H. Mulhall, visited the Hotel and explained to everyone the advantages of the Government colonies in Entre Rios. Attentive ears were not wanting; but the general verdict seems to be for the South, on account of its proximity to the sea and the grand fact that the enterprise is private, which even to the most ignorant and uninitiated means more seriousnes in the due fulfilment of the bargain. There are about twenty girls fit for service.

Diarrhœa is very bad, especially amongst the children, and the presence of an English doctor would be a real act of charity.

ONE HUNDRED MILES AN HOUR!

NEW INVENTION WHICH THREATENS TO REVOLUTIONISE RAILWAY TRAVELLING.

Experiments have recently been made in Portland, Maine, with a patent bicycle engine, which the inventor, Mr. E. Moody Boynton, claims can be safely run at a speed of one hundred miles an hour.

The verdict of the practical men is said to be as favourable to the new invention as is that of the general unscientific public. The immense possibilities of the new system appeal very strongly to the imagination, and the fact that the engine now on exhibition has been constructed by home mechanics and is handled by them increases the singularly great interest shown here.

In the course of an interview, Mr. Boynton was asked: "How are you satisfied with the success of the experiments?" Said he; "I am perfectly satisfied. With one quarter steam and a consumption of 20 pounds of coal per hour, the 20-ton engine was moved back and forth a majority of times with the steam shut up, working by expansion. There was no friction whatever when running straight. So accurately balanced was it that the wheels—all of them within half an inch of the guiding beam, frequently stood entirely still. There was no swaying whatever from side to side, the smoothness, stillness, ease, and grace of motion were all that could be desired. It was simply the bicycle running on smooth steel and pushed by steam to which 500-man power could be applied by increasing the furnace fires. This machine has a wheel 8 ft. in diameter and two engines, each 12 by 14 stroke. From 550 to 600 revolutions or turns, equivalent to 150 miles per hour, are its piston speed and valve action. It is expected to take four cars, each seating 88 passengers, 100 miles per hour if necessary. The weight of these cars is 28 tons or seven tons each. It would require 10 palace cars, weighing 400 tons, or five passenger cars, weighing about half as much, to convey the same number of passengers we carry with 28 tons. Not only do we save fivefold in the weight of the train, but the friction of the bicycle spindle wheels is less than one half of the ordinary double track train. A saving of 10 to one in the power required permits the attainment of any average speed of 100 miles per hour, or the carrying of freight and passengers at the present rate of speed, with from five to ten fold saving in power required. The cost of equipment and of wear and tear will be porportionally reduced; each single track railway, by this single rail system, becomes a double track, without the purchase of any new land, grading, bridging or tunnelling. The only added expense is the upper skeleton frame with guiding beams, 16 ft. above the track which will cost, when made of wood, from $1,500 to $3,000 per mile, or, if made of steel, about $3,000, exclusive of double length ties, to which the arching steel is fastened. The average coat of tracking roads is about $30,000 per mile. By this system one-tenth that sum, with wood, or one-fifth that sum with steel, gives ample allowance for every contingent expense. No steel rails are used overhead, only wooden guiding beams; and the wheels scarcely ever touch them going straight."

"How about safety?"

The safety is nearly absolute if very high rates of speed are not desired. The safety at 100 miles per hour will be greater than the ordinary trains at 20 miles. There is no wedging or side strain or oscillation with the bicycle train, which is grooved both above and below, and cannot leave its track, and when made of steel, 14 feet deep, it can neither break nor burn, and with additional safety wheels wrecking is practically impossible. The overhead structure carries the wires, with which the engineer can converse in a fog with a train 50 miles away, or with the station-master while he is moving 100 miles per hour."

All the patents of the Boynton bicycle railway system in the United States are the property of the New York company, which is organised something like the Bell telephone, with a capitalisation of $5,000,000. It was chartered under the New Jersey laws January 30, 1888, and its stockholders embrace some of the best names in New York and Boston, although there is not one speculative name among them. No stock is on the market, and none is sold except for experimental purposes. Mr. Boynton claims that, should the system save half the present expenditure in transportation, adapted to the billions of dollars of existing railway property, the royalties at one mil. per mile for each passenger and the same per ton for freight would produce an income of more than $70,000,000 annually. The possibilities of the new bicycle engine many scientific men believe will never be surpassed in transportation either in simplicity, ease, economy, or speed, and that the bicycle system of steam, or more likely electric, transportation will be used until earth ceases to be inhabited.

ARGENTINE STEAM LIGHTER COMPANY LIMITED.

REPORT.

After providing for Depreciation, the receipts for the past year exceed the Expenditure by £4,214 19s. 3d., which, added to £14 11s. 10d. brought forward from the previous year, gives £4,229 11s 1d.

The Directors recommend to the Shareholders the declaration of a Dividend of Seventeen Shillings per Share, free of Income Tax, payable by Warrants to be issued on the 31st instant. This will absorb £4,084 5s., leaving £145 6s. 1d. to be carried forward to the next account. Finding that the "Delta" and "Elena" were not such profitable boats as those of larger size, the Directors decided to accept an offer of £7,000 each made for them at Buenos Ayres in the month of March. This left a surplus of £934 18s. over and above the depreciated value at which they stood in the Company's books, which sum has been placed to Reserve Fund. To replace these Lighters, the Directors contracted for two new ones, eight feet longer than the "Como." The first of these, the "Freda," arrived in the River Plate on the 11th August, and the second, the "Gerda", on the 31st August. They stand in the books at a cost of about £8,500 each, delivered at Buenos Ayres. On the 9th June, the "Como" came into collision with the s. s. "Caloric," in the Boca Channel, and was sunk. Repeated efforts have been made to raise her, but so far without success. Following the usual course in the River Plate, the question of liability was left to the decision of Arbitrators on the spot, and the Directors regret to report that the decision was against the "Como". Whilst endeavouring to escape this collision, the "Como" ran into the barque "Tongoy", and for this damage she has also been held liable. In order to supply the demand for more tonnage, the Directors have contracted for another Lighter to carry about 50 tons more than the "Gerda". She will be fitted with triple expansion engines of approved type, and will be ready to leave England about June next. This will involve the necessity for calling up the remaining £1 10s. per Share, due notice of which will be given. The retiring Director is Mr. George Holt, who offers himself for re-election; and the Auditor, Mr. Samuel Whalley Davies, also offers himself for re-election.

Directors: George Holt, Walter Holland, Charles W. Jones, George H. Melly.

ENGINEER SCHNEIDEWIND'S REPORT ON THE TERRIBLE ACCIDENT—AS USUAL, NO ONE TO BLAME.

THE BANCALARI DISASTER. SOME FIGURES ABOUT THE PACIFIC AND PRIMER ENTRE-RIANO RAILWAYS. RESIGNATION OF MR. RINGUELET.

Inspector Schneidewind's report, to which the public are anxiously looking forward, was not finished yesterday. There seems to be considerable delay in getting up this report. We could not even obtain a peep at the little that the Inspector has written so far, but we may say in anticipation that the report will cause sensation. The public will not forget the terrible accident for many a year to come. The horrible details which filled the papers on the following day have left too deep an impression, and we may prepare to witness some smart work on the part of the authorities. Since writing above we have received Engineer Schneidewind's report which we publish at foot.

The kilometrage covered by the Pacific Line during the month of January was as follows: locomotives 163,664; carriages 320,902; wagons 714,823. Total 1,199,389. That covered by the Primer Entre Riano during the month of February was: Locomotives 689; carriages 847,100; wagons 492,200; total 2,028,300. The deficit in this last mentioned line during February was $173-50, the gross returns having been $682-50, and the working-expenses $861.

Meiggs, Son and Co. have presented to Government the plans of their railway from Bahia Blanca to Villa Mercedes and Rio Cuarto.

Our La Plata exchanges announced yesterday that Mr. Ringuelet, whose name is identified with every improvement in the Provincial Railways, had sent in his resignation. It appears that Mr. Ringuelet was allowed a very limited salary when his responsibilities are considered. We think the Provincial Railway Board should be slow to part with so well-known and energetic a public-servant. Mr. Ringuelet is as well-known as the Western Line.

Engineer Schneidewind sent in his report to-day to the Public Works Department regarding the terrible catastrophe which occurred on the Rosario line on the 11th. He states, the accident could not be avoided and attributes it to two causes: 1st—the bad arrangement of the carriages, and 2nd—the imprudence or incapacity of the driver. As to the doors being locked, he denies the statement, the only ones locked being those connecting the sleeping cars with the second-class carriages.

THE MARRIAGE OF MDLLE. DE MURRIETA.

It is some years since London has witnessed any Catholic function on so imposing a scale as the Nevill-Murrieta marriage which took place at the Brompton Oratory on February 11. Lord William Beauchamp Nevill is the fourth son of the Marquis of Abergavenny, K. G, and Mdlle. Luisa, Maria, Carmen De Murrieta is the elder daughter of the Marques and Marquesa de Santurce, of Spain. The wedding ceremony was attended by their Royal Highnesses the Prince and Princess of Wales, accompanied by the Princesses Louise, Victoria, and Maud, and Prince George of Wales. The Royal party was attended by Lord Suffield and Colonel Clarke, and the Duke of Teck, with his son, Prince Francis, were also among the illustrious guests present. Lord Richard Nevill, brother of the bridegroom, attended him as best man, and the bridesmaids were: Mdlle. C. de Murrieta, sister of the bride; the Ladies Idina and Violet Nevill, sisters of the bridegroom; Miss Violet Gathorne-Hardy and Miss Joan Nevill, nieces of the bridegroom; and Miss C. Barron. The bridesmaids' dresses, which were greatly admired, were composed of white sicilienne, trimmed with beaver fur, with white moiré sashes and cravats of mousseline de soie. They wore picturesque hats of beaver-coloured velvet, trimmed with white ostrich feathers and brown ribbons. Each wore a beautiful gold and blue enamel chatelaine watch, set round with diamonds, and surmounted with the initials "B. L." in the same precious stones, and carried a bouquet of the loveliest pink and red roses, both being the bridegroom's gifts. The Royal party entered the church a few minutes before half-past eleven o'clock, and were received at the entrance by Lord Henry Nevill, the Very Rev. Father Gordon, superior of the Brompton Oratory, and Mr. Adriano De Murrieta, who conducted their Royal Highnesses to the seats reserved for them facing the sanctuary. The bride then entered the church, leaning on the arm of her father, who conducted her to the *prie Dieu*, where the bridegroom awaited her, The bride's simply-made dress was of rich, dull silk, brocaded with large magnolia blossoms in bright satin. The front of the skirt was ornamented with a graduated chatelaine of orange blossoms, tapering at the waist and continued up the bodice; a fichu of mousseline de soie was arranged in soft twistedf olds round the throat, draping the high bodice, and, tied at the left side, fell in a long sash almost to the feet. She wore a coronet of orange blossoms and a long tulle veil fastened with diamond pins; and her other ornaments were diamond earrings and a diamond brooch at her throat. The bridal march from "Lohengrin" was played as the procession passed up the nave.

The actual marriage was solemnised by the Rev. Dr. Vaughan, Bishop of Salford, (brother of the lamented Archbishop of Sydney), who was assisted by the Rev. Father Sebastian Bowden and Father Bernard Vaughan; while the nuptial Mass was conducted by Father David Williamson, assisted by the Fathers of the Oratory. The bride was given away by her father. While the first part of the service was being read, a general movement was made towards the altar; the devout knelt down to pray, the curious got up on the seats to observe; the tall footmen, magnificent in powder and large bunches of lilies of the valley, straggled about; and after a very few minutes the bridal party retired to the sacristy. The nuptial mass, which formed the third part of the programme, was listened to by the bridal party, seated on gilt chairs, or kneeling before *prie dieux* covered with old gold brocade and silk, which stood on a large carpet. The wedding guests followed the service from elegant little programmes, gilt-edged and vellum-bound. Prince George sat with his youngest sister closely behind the bride and bridegroom, wearing a "button-hole" of violets and a wedding favour. The Prince of Wales wore a bunch of white flowers, and looked greatly interested, but very serious.

After the conclusion of the ceremony, the Marques and Marquesa de Santurce entertained the wedding party at breakfast at their mansion on Carlton House Terrace—lately the residence of Earl Granville. The whole of the Royal party above mentioned were present, and the Princess Mary Adelaide Duchess of Teck, and Princess Victoria, joined the Duke and Prince Francis of Teck. There was a large and fashionable attendance, among others present being the Russian and Spanish Ambassadors. At the breakfast His Royal Highness the Prince of Wales proposed in graceful and felicitous language the health of the bride and bridegroom, alluding with earnestness to the fact that he had been an old friend of the bride's father and mother, and had known her from the days of her childhood, and also appropriately calling to mind the satisfaction with which the alliance must be viewed by the bridegroom's father, the Marquis of Abergavenny. Lord William Nevill responded in modest and becoming terms to the toast. The Royal guests stayed till nearly half-past three in the afternoon, and soon after their departure the newly-wedded pair took leave of their friends and left to pay a visit to Cardinal Manning. Later Lord and Lady William Nevill started for Paris on their way to Rome, travelling from Charing Cross to Dover, at the invitation of the Prince of Wales, in the special train provided for His Royal Highness, who left for the South of France at the same time.

The wedding presents, which were displayed in the ball-room, and which numbered over 600, included the following:—To the bride—from the Empress Eugenie, a silver-gilt bowl of George I period; the Prince and Princess of Wales, a cat's-eye and diamond horseshoebrooch; the Princess Louise (Marchioness of Lorne), a large brocade screen. The bridegroom's gifts to his bride were a ruby and diamond half-hoop ring, black point-lace fan with tortoise-shell sticks and monogram in rubies and diamonds, diamonds and ruby butterfly, ruby, sapphire, and diamond double horseshoe pin, jacinth and diamond ring, ruby and diamond sleeve links and jacinth and diamond earrings. The bride's parents presented her with a superb pearl and diamond tiara; the Marquesa de Santurce also gave her a diamond marquise ring. The bride also received from Messrs. C. and A. de Murrieta diamond cluster necklace and pendant; Miss Clarita de Murrieta, large half-hoop diamond ring; Mr. Mariano de Murrieta, large diamond epaulette: the Duke and Duchess de Vistahermosa, large diamond cluster earrings; Mr. C. J. de Murrieta, diamond and sapphire bangle; Messrs. Francis and C. J. Murrieta, complete silver tea and coffee service with silver tray and urn; the Marchioness of Abergavenny, a very handsome travelling bag with tortoiseshell and gold fittings; the Ladies Idina and Violet Nevill, egg shell china tea set; Lord Richard Nevill, diamond and enamel watch bracelet; Mr. J. B. and Lady Rose Leigh, ruby and diamond earrings; Lord and Lady George Nevill, diamond horse shoe pin; and Lady Cicely Gathorne-Hardy, silver-mounted card case. The bridegroom's presents included—From Her Royal Highness the Princess Mary Adelaide, Duchess of Teck a George II, silver chocolate pot; from the bride, a set of ruby and diamond studs and a ruby and diamond ring. The Marquis of Abergavenny presented the bride and bridegroom with a "sociable", and the Marchioness of Abergavenny's gift was a quantity of silver plate. The Marquesa de Santurce's presents included a brougham and a silver George II. water jug; Lord Richard Nevill gave a pair of silver-mounted liqueur bottles and a large hot-water side dish; Miss Clarita de Murrieta, turquoise and diamond pin; Major Henry Morland (5th Lancers), elephant's foot mounted in silver; Mr. J. B. and Lady Rose Leigh, George II. silver salver and coffee pot; Mr. Adriano de Murrieta, pair of old silver pepper pots; the Ladies Idina and Violet Nevill, George II. silver salver; Lady Alice Morland, pair of silver pepper pots; Lord and Lady Henry Nevill, pair of silver George II. sauce boats: Colonel the Hon. C and Lady Cicely Gathorne-Hardy, field glasses; Lord and Lady George Nevill, six antique silver-gilt dessert spoons; Duchess of Hamilton, razor strop mounted in silver; the Earl and Countess of Yarborough, pair of silver mounted claret jugs; and Viscount and Viscountess Cranbrook, large silver sugar castor and crayon drawing.

THE BULL FIGHT.

B. Ayres, March 19th 1889

To the Editor of the *Standard*.

Sir,

I presume the reporter who furnished you with the account of Sundays bull fight at Colonia was still under the influence of "mal de mer" when he witnessed the show and wrote his copy, since his description is as "adinequate" to the occasion as was the old sport house alluded to in your Sporting column, for its requirements. I was one of the three hundred and odd foolish persons who left the Boca for Colonia, to satisfy a curiosity as to the cruelty of a sport which I had often heard described as degrading, but so far from its being a farce, the interest of the spectators was kept to the highest pitch throughout. I do not justify for a moment the practice itself or my own attendance, but in the interests of a suffering public, venture in all humility on the following suggestion; set the reporter to assist your sub-editor with the correction of proofs and do not mislead your subscribers with garbled accounts and typographical inaccuracies.

Your obedient servant.
One who was there.

EDITOR'S TABLE

Yesterday was a "nothing particular" day, the only lively item being the unconfirmed rumour of a rousing revolution in Rome, King Humbert locked up in the Qurinal, and cannon and grape-shot mowing down the gentle Romans. Of course it was all bosh, but, perhaps, may not be so bosty when the big European scuffle begins. Some people were looking out for lively news from Paris in the financial line, now that the Comptoir d' Escompte has gone irretrievably to join the Panama Canal in the Lethean stream of bankruptcy.

A captive balloon at the Recoleta is one of the winter novelties already announced. Of course our gay and festive population will patronize it hugely.

The movement to collect funds for the railway horror victims made progress yesterday; but little money has as yet come in. The circus company in the Florida Gardens gives a benefit to-night for the poor people.

Oh! ye gods and little fishes! Don Eduardo Madero will protest. The Health Board is said to have hit on the idea of building the long talked of Lazaretto in the immediate proximity of the South Dock! Did you ever? Never. Why not build the Lazaretto in Calle Florida.

Messrs Benatti and Bonavia have applied for a privilege to start a crematorio, to burn corpses in 20 minutes (brokers in ten minutes.)

Mr F Bores has applied to Government for some State land at Palermo as a Velocipede ground. Cock him up!

We have received—translated into English—the Report of the Rural Society to the National Government on the export of guaranteed beefsteaks to Europe. Some of our readers may like to plod through it in their vernacular, and we hold it "a su disposicion."

We find on our table almost every day now some new political colleague from the provinces, with the word "Canje" on the wrapper. We wish all our new confreres the vary best of success, but it is quite impossible for us to exchange with them. The tons of waste-paper we sell every month in the shape of unopened exchanges from all parts of the globe would almost support a colony in the Chaco.

Advices from Montevideo announce the death of a son of Don Enrique Lynch, the well-kown Rio Negro estanciero from the effects of a bite from a piosonous fly.

Dr Pambo's special report to the Health Board on Sanitary matters in Chile is not very flattering to our republican relatives on the West Coast

Importante Remate en RIO IV.

42,500 hectareas Campo Flor, distante solo 3 1/2 leguas de la ciudad de Rio IV.

Dividido en 4 lotes algunos con poblaciones, corrales &c., lindando con campos de D. Ambrosio Olmos y de conocidos por de Adolfo von der Wall.

Se rematara en nuestra casa Alsina 482 n/n Sin base Sin base.

El Viernes, 29 de Marzo
A LAS 3 P.M.

Estos hermosos campos pertenecientes á los herederos del finado Adolfo von der Wall, mayores de edad, situados en el paraje mas importante de la provincia Rio IV; se componen de 42,532 hectareas 69 areas 17,605 ets y se remataran en cuatro lotes con arreglo á la mensura practicada por el agrimensor publico Sr. Eduardo de Saint Remey Urban aprobada por el departamento topografico y juzgado de letras, siendo la superficie de los cuatro lotes la siguiente:

1—La suerte no. 1 (San Bernardo) 4342 hs. 77 as. 18 535 cs.

2—La suerte No.2 (Bengolea) 12.069 hs. 29 as. 91 cs.

4—La suerte No. 3 (Montenegro) 14,206 hs. 92 as. 21 cs. el terreno enclavado 920 id 24 id 70,620 id formando un total de 15.127 hs. 16 as. 91,620 cs.

4—La suerte No. 4 (Montaño) 10,993 hs. 45 as. 16,250 cs.

Superficie: 42,532 hs. 69 as. 17,405 cs.

Las mejores encontradas son las siguientes:—

En el lote num. 1 (San Bernardo) Una acequia del Sr. Ambrosio Olmos, que atraviesa toda la cabecera, desde el mismo paisando por la esquina nordeste; una casa habitacion de 2 piezas de adobe y 2 cuartitos; un pequeño corral de ramas y un cerco alambrado de 6 cuadras sembradas con alfalfa. Al norte de la acequia principal de Olmos, hay un bajo rogable de gran fertilidad hasta la ribera de Rio IV., poblada en su mayor parte con arboles de calden, algarrobo, tala, molle y sauces. El costado este está alambrado por el Sr. Olmos, habiendo dejado in mitad de la calle libre para el transito é camino que va al pautano.

Numero 2—Una casa de adobes de 2 piezas, 2 cuartos y una ramada en buen estado rodeado el patio de arboles frutales y sauces, un corral grande de zanja y un cerco de alfalfa de 3 cuadras cuadradas.

Numero 3—El puesto que arrendo D. Mariano Arguello, compuesto de una casa de adobes con cocina, una ramada alambrada de 70 por 130 metros con manga y un corral de palos a pique.

Numero 4—En la suerte vendida por D. Luis Montaño á von der Wall, no hay establecimiento; el costado norte esta alambrado por D. Ambrosio Olmos y el del este por los Sres. Juan Gardey y Mariano Velez.

Es excusado de clasificar estos campos, son bien conocidos en toda la republica por ser de primera calidad. A pesar de haberlas pastoreado muchas haciendas, sus pastos son siempre buenos, como lo demuestra el estado de gordura; y una vez alambrados, en vista de sus considerables cañadones y bañados, y mezcla de pastos tuertes y graniillares, se prestarán no solamente á la cria de hacienda, sino tambien ventajosamente á la agricultura.

La venta se efectuará sin base, en la capital federal, en nuestra casa Alsina 482, onde pueden ocurrir los interesados por lanes é informes. 567 127 m29

EXCEPCIONAL REMATE
de las chacras, quintas y solares que componen la colonia
MAXIMO PAZ
sobre el F. C. de Cañuelas con estacion propia y á una hora de la capital de la republica.
EL LUNES 25 DE MARZO dia de fiesta,
á la 1 p. m.

Rematarémos por cuenta y orden del Sr D. Emilio Duportal las espléndidas chacras, quintas y solares del Centro Agricola "Maximo Paz." Jamás se habrá vendido en esta forma una estension de tierra tan selecta y tan cercana á la capital de la república. Venta liberal; tiene por base el valor de las cédulas hipotecarias que corresponde á cada lote, pagadero en 20 años y bajo las prescripciones de la ley de Centro Agricola.

El remate tendrá lugar en el mismo CENTRO AGRICOLA. Nota: tren expreso de ida y vuelta gratis.

Es conveniente que los agricultores se den cuenta exacta de la situacion excepcional de este centro agricola que como decimos más arriba queda solo á una hora de la capital federal.

No hay ningun centro agricola por el momento que esté en iguales condiciones al centro Máximo Paz con el ferro carril sobre el mismo terreno y su estacion propia.

Las chacras están todas alambradas con 5 hilos, tranqueras correspondientes, etc., etc.; de manera que el agricultor no tiene sino ocuparse de hacer producir la tierra.

Creemos obvio demostrar detalladamente lo que produce tierra bien cultivada y que con ello puede el agricultor pagar no solo el interés y amortizacion igual de la hipoteca sino algo mas; asi que es inutil insistir sobre la conveniencia que tiene el comprador al hacerse cargo de la hipoteca que tiene cada lote y que servirá de base para la venta tomando las cedulas al precio de Bolsa, cuya diferencia y demasia de precio si lo hubiere, se pagará al contado el dia que reciba el boleto definitivo, que será a los 13 dias del que se verifique el remate.

El comprador que quiera recibir el titulo de propiedad, puede obtenerlo pagando el importe total (libre de hipoteca) al exterderse la correspondiente escritura.

Esta venta se hace a la ley de centros agricolas que como se sabe ofrece grandes ventajas al agricultor.

Por planos detallados ocurran á nuestra casa Alsina 482.

Nota—Toda comprador entregará el 5 oje al firmar el boleto de compra.

Otra—El remate empezará despues de un almuerzo campestre,

Remate del centro agricola General Paz
Autorizado por decreto del S. G. de la provincia de fecha 18 de Febrero 1888.

Los terrenos en que el centro General Paz esta autorizado se hallan situados en el deslinde del partido de Las Flores y Tapalque, entre las estaciones Pardo y Colorado del ferro-carril del Sud, distante 2 leguas de cada una de ellas.

Como se vé en el plano, esa distancia desaparecerá con la construccion de un via ferrea, que ligará el centro agricola con la estacion Pardo y que esta autorizada por el excelentisimo gobierno.

En el campo existen trescientos y tantos mil ladrillos para las obras de edificacion que deben hacerse en el pueblo; escuela, casa de policia, iglesia y casa municipal.

Las tierras pel centro agricola General Paz todas vejetales y altisimas, en las lluvias torrenciales que han pasado son los unicos campos que no han sido inundados.

Vecinos para convencerse de ello.

Las chacras caen todas mensurarias y amojonadas reconociendo cada una de ellas una hipoteca al Banco Hipotecario con la cual el colono puede continuar á objeto de chancelarla en los años que debe durar é bien levantarla inmediatamente si asi lo conviniera.

Los que tengan di ero y los que no lo tengan pueden comprar. Base de venta 60 pesos la hectarea.

Estos importantes tierras re remataran por Adolfo Bull ich y Cir.

El dia 7 de Abril

En el mismo centro, a las 2 de la tarde.

Tambien se remataran si hay interesados, una gran cantidad de utiles, instrumentos y maquinas valiosas de labranzo sin uso, muchos de ellos, aun no desenzajonados; maderas, postes, alambre, alambre, etc. etc.

Al mismo riempo se rematara el magnifico palacio con 200 hectareas de tierras grandes alfalfares, galpones, caballeriza, cochera, carruajes, etc. etc., y animales fino, caballos y lanar.

PRIMER Gran Remate

En los terrenos linderos al pueblo Inglés y Sociedad 'HurlinghamClub,' conocido por de "Pereyra" partido de Moron.

Nuevo centro de poblacion que por su proximidad á la capital, Federdl, facilidad de comunicacion, topografia, y elementos de poblacion que han resuelto su creacion esta llamado á tomar una importancia notable en esta era de progreso.

El Domingo, 7 de Abril
A las 12 del dia

Sin Base, al mejor postor

Remataremos estos espléndidos terrenos llamados á hacer época por su importancia y porvenir. Distan solo 18 kilómetros de la plaza Victoria y se hallan cruzados en toda su extension por el tramway Raral cuya estacion "Pereyra" se halla en el centro de la traza de manzanas. En la esquina Sud, está la nueva estacion "Hurlingham" del F. C. al Pacifico.

Por la parte del Este, los terrenos en venta lindan calle por medio con la importante sociedad Inglesa de juegos Hurlingham Club única en su genero é importancia, tanto por su carácter alegre, como por ser formada por casi toda la flor de la colonia inglesa.

Por el sud linda con los terrenos de la misma sociedad, destinados á la creacion de mas de "cien chalets" para residencia veraniega de los socios que por la comodidad del ferro carril y tramway pueden residir allí con sus familias; y por el Oeste se encumbra proximo á estos terrenos la valiosa propiedad remo Norberto Quirno Pizarro que ya está dividiéndola, formado en ella establecimientos modelos de carniccrias, lecherias, etc.

Seria largo enumerar las ventajas que presenta la localidad y los proyectos que se han propuesto realizar allí esta falange de vecinos progresistas. Antes del remate estará listo para la concurrencia un buen almuerzo campestre á la llegada de los tramways y trenes del F. C. al Pacifico que se pondrá gratis á disposicion de los interesados.

Los terrenos estarán embanderados y amojonados para demarcarlos claramente, estando las calles ya abovedadas y las manzanas divididas en lotes de 20 por 50 varas.

Resúmen distancia: 18 kilómetros de la plaza Victoria, 6 id de Moron por el camino "Paso Morales" 7 id del pintoresco pueblo de "Bella Vista," 4 id del famoso rio de las Conchas.

The gold speculation to-day was more or less quiescent. The bulls made a furious effort to hoist the quotations over 159, but as the cash supply is abundant and the liquidation still a respectable distance off, rates left off as they opened. There may come still further the next ten days periods of feverish animation, dependent on receipt of momentous news from Europe, and more particularly from Paris, where matters are still rather ticklish; but brokers think that the most active period of the speculation in gold has passed, and that matters will probably remain as they are now until the approach of the settlement. With the decreased activity in gold, however, stocks are now engaging speculative attention, and if one more than the other, it is the sovereign stock, a few days ago so depressed at 257 and now buoyant and booming at 262. This revival is ascribed to the operations of a bullish syndicate. It is also said that the parties who floored the market last month by heavy delivery of shares are now buying back again, and as the stock is admittedly over-sold, quotations must still advance considerably. There is much confidence reposed in this splendid stock by holders; although at times the exigencies of a situation may compel holders to realize large lots and thus depress prices, they invariably repurchase their shares on opportunity, as so often exemplified in practice, and 300 is fixed by some parties well versed in the market and its stocks as the future goal of National Bank Shares.

A telegram was received to-day from the Bolsa Correspondent in London announcing the launching of the San Luis loan in 25,000 shares of 500 francs each.

The new Committee of the Sala Comercial of the Once was elected yesterday, the following list carrying the day:—E. Casey G Gallegos, G Bettran, F de Souza Martinez, N de Abelleyra, C Lix Klett, A Bracht, E Zimmermann and R Taurel. Better or more representative men could not have been selected.

The sale is reported of 50,000 hectares of camp in Lincoln, presumably for Centro Agricolas, at 30 dollars the hectare.

A lighter Company for developing upriver traffic has been formed under the title of "La Mercantil." The capital is set down at 1,200,000 m/n in 12,000 shares.

Circulars were handed round to-day announcing that a new firm has been formed under the title of Devoto and Co. to continue the extensive business formerly carried on by the leading firm of Devoto Hno. In the new firm Messrs. Antony and Bartholomew Devoto figure as sleeping partners and Mr. Joseph Devoto as the working partner. Messrs. L. Chalot and J. Massoud hold powers of attorney.

Mr. Christophersen, popular agent of La Veloce Company, received a telegram to-day from Las Palmas, signed by the passengers on board the greyhound packet Nord America, congratulating him on the splendid accommodation and treatment received and the urbanity and courtesy of the captain. The telegram is signed by Messrs. Carlos Frias, Luis de Candia, A. Acebedo, Alberto Alzaga, Maximiliano Neill, Sarda Fernando, Mr and Mrs Machain, E. Bosch, A. Pero, Rodolfo de Estrada, Marson.

Mr. Folkard, agent and representative of John Jackson, the well-known railway contractor, was welcomed to-day on 'Change. Mr. Folkard arrived in the Trent.

The R. M. S. Trent sailed to-day. She took a full list of passengers and many tourists. Exchange for this packet might have been larger but for the news from France. She took in specie £450,000 stg. The passengers from this port were: E. W. Retchol, Miss Shepherd, Mrs. Puente, 2 children and servant, Mrs. Trillia, Mrs. Gowdy, Reg. Brooke, Thos. Greig, and Sra. de Mitre. The remaining berths were all taken for M'video and Brazil.

Mr. Anderson, who has arrived out in connection with the Royal Mail Packet Company was welcomed to-day. He says that in London nothing was known of the state of Rio when the Atrato was despatched for that port, as the company had no intelligence of the Brazilian health bill being any worse than usual.

The s.s. Provence left Marseilles on 14th for the Plate direct with 950 passengers.

The sensational news of the day was the cable received from the Bolsa correspondent in London, posted at a late hour, announcing that the Comptoir d'Escompte is going into liquidation and the Compagnie des Metaux is to suspend payment. The board was crowded on the moment and the news eagerly discussed. Its influence here of course reaches to the gold market through exchange, as the bills drawn on the Comptoir will of course now not be accepted.

Gold rose at the second hour, but as the supply for cash still ruled abundant the advance was much smaller than anticipated. Operations embraced a round three millions and the closing rates were 158.80 for cash, 158.60 for end of month and 158.40 for end of April. National Bank shares advanced at a tremendous rate and closed in demand at 264 for end of month; sellers, so plentiful a few days ago at 257 and 258 have now grown chary and are holding back. Flores Constructors advanced to 20 o/o premium. Constructors were firm at 125 for cash and 128 for end of April.

The following is a summary of operations effected this evening at the second ring:—

The "Compania Argentina de Manipositeria" has applied for approval of its statutes.

Government has refused the petition of Messrs Aunal & Co., contractors for the bridge over the Riachuelo at Corrientes for an indemnity of $20,000 loss on exchange.

Exchange brokers report rates on Paris advancing, owing to the scarcity of takers. First-class bills offering at 5 francs, whilst smalll bills drawn against wool hipped, were done at 4.97. Sterling bills passed at 47, and 47¼.

Two million of Nats. have been taken up by a syndicate to buy National Bank Shares in which stock there is now a great boom, and many parties expect to see the shares soon up to 275.

Mr. Martin Schaffter of Entre Rios was welcomed on 'Change also Mr. John Leared. Mr. Casey leaves to-night for Montevideo and will remain down there for some time. Mr. Rousselet, who has arrived back from Mar del Plata was welcomed by his colleagues to the ring. Mr. E. T. Puleston of La Plata was also welcomed.

Some very important financial business was spoken of on 'Change to-day, but the matter is kept under great reserve.

Money is reported tighter and was quoted to-day at 8 o/o. It seems that the banks are not inclined to work with any freedom in view of the very unfavorable advices from Europe.

News from the produce markets is most satisfactory in tenor, as prices are high and everything sells. Arrivals of wool though not heavy are large for this time of the year, which shows that the farmers are behind time. Lambs wool sold as high in the South Market to-day as 4.80 m/n and Western wool in the Once at 5 dollars. Arrivals of cereals are poor.

It appears from advices received from Paris that the Corrientes Loan was a doubtful success. The Banks said it was covered, but subscribers received allotments in full.

Respecting the Bank of France, about which there is so much enquiry, we may state that it is constituted pretty much the same as the National Bank here. It is a joint-stock concern; the par of the shares is 1,000 francs, and for same time back the shares have been dropping; the quotations were as follows:—

	Francs
Jan. 17th, 1889	3,680
" 24th "	3,660
" 31st "	3,640
Feb. 7th "	3,650

The annual meeting was held in Paris last month, and the dividends for the year fixed and paid, and report read. M. Akerman and Baron Hottinger were re-elected directors, and M. Michan and M. Chabert elected in place of M. Demachy (deceased) and Count de Germiny.

The fall in the shares of the Societé des Métaux on the Paris Stock Exchange may be understood from the following quotations. The shares are 500 francs par;—

	Francs
Jan. 17th, 1889	712.50
" 24th "	657.50
" 31st "	501.50
Feb. 7th "	535.00
Mar. 16th "	90.00
" 19th "	nil.

Our readers can imagine the stupendous losses in this stock, which but a year ago was considered the best in Paris. The losses in Panama Canal are even inferior, as appear by the following quotations. Panama shares par 500 francs:—

	Francs
Jan. 17th, 1889	121.25
" 24th "	111.25
" 31st "	98.75
Feb. 7th "	57.50
Mar. 16th "	nil.

In view of the great interest attached at the present moment to the Comptoir d'Escompte, which has had such intimate business connection with the Plate, the following quotations of its shares will be read with interest. Comptoir d'Escompte shares: par value, 500 francs:

	Francs
Quotation Dec. 15th, 1888	1055.00
" Jan. 26th, 1889	1067.50
" Feb. 7th, 1889	1060.00
" March 19th, 1889	160.00

On the 31st January a meeting of the shareholders was held to consider the report for year 1888, which was approved, and a dividend of 50 francs per share declared.

With regard to the great sale of Flores Constructor lands in Flores on Sunday last, it was the talk of the market to-day, and the shares seem in a fair way to benefit by the splendid business which the Company is doing. At the last Bolsa liquidation the auctioneer had some difficulty in disposing of a lot of 100 shares at par; now they can scarcely be had at 15 o/o premium. It is also interesting to note that the 14 squares sold on Sunday at an average of 3.50 m/n the square yard were valued by the board on 31st December last at 1.50 m/n., and even on this no dividend was paid, as the directors pursue the very prudent policy of only paying dividend on profits actually realized. Besides the 14 squares sold the Company owns a further extent of 14 squares in the same property.

In Government circles there was great excitement to-day, as at a late hour it was known some very important decrees had been signed in the Ministerio de Hacienda regarding financial projects. It was impossible to ascertain their purport.

DR. J. M. HENRIQUEZ

GRADUATE OF THE NEW YORK COLLEGE OF DENTISTRY.

Of the Medical University of the City of New York, of the Dental Department of the University of Buenos Aires and former preceptor at the New York College of Dentistry offers his professional services to the public.

Having just arrived from New York, after an absence of six months from this city, I bring with me all the latest appliances and improvements in the dental line.

During my stay in the North I have made a special study of Crown-work, and am able to replace without pain, artificial crowns of an

IMPROVED SYSTEM

on decayed or dead roots, without the use of the troublesome plates.

This system is undoubtedly the greatest blessing to those suffering from decayed or broken teeth, as the crowns entirely obviate the necessity of extraction; and roots that are still firm in position can be restored to their former usefulness, and made as solid, that they will perform the function of mastication like natural teeth.

If but two firm roots remain in the jaw in the proper position an entire set of teeth can be attached to them, and restore the mouth to its original beauty and comfort without the use of a plate.

FIG. I

Fig. I represents a model of a mouth in which a molar at C, and two front teeth A and B are badly decayed, and past the possibility of useful filling. The nerves are dead in A and B, A representing a broken tooth, while B has been prepared for the crown.

At 1. is the root of a front tooth as it would appear if extracted. 2. shows the end of such a root prepared for a crown; 3. is the crown ready for attachment; 4. the crown attached to the root.

It is needless to say that I never extract the teeth for the purpose of crowning them. The cuts of the roots are simply for the purpose of illustrating the method of attachment.

FIG. II

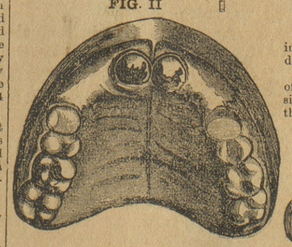

Fig. 2, represents model of a month in which the two front teeth have been destroyed by decay.

The roots of these teeth are capable of carrying crowns and teeth at either side to occupy the spaces from which these side teeth have been extracted.

FIG. III

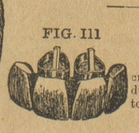

Fig. 3, two front crowns with side dummies soldered to them.

FIG. IV

Fig. 4. The four teeth cemented in position upon the roots A. B. C. D.

All are respectfully invited to call and examine these beautiful operations and judge of their merits. Besides this my specialty, I perform with skill and care, every operation known to the art of Dentistry and at very reasonable prices.

Importantisimo Remate de nueve chacras, en la colonia

Felix. F. Lynch

Partido de Chacabuco.

Domingo, 24 de Marzo

A las 3 p.m.

Remataremos por cuenta y órden de uno de los concesionarios del centro agricola Felix F. Lynch, situado en el partido de Chacabuco, nueve chacras de dicha colonia medidas y amojonadas.

Base de venta 60$ la hectárea. El comprador se hará cargo de la hipoteca del lote que adquiriese y abonará la diferencia entre la cotizacion de la cédula en plaza y el precio á que compre la tierra al contado; ó con un pagaré á 99 dias con 1 o/o de interés mensual.

De acuerdo con los artículos 31 y 32 de la ley de centros agricolas, el comprador recibirá la escritura definitiva á los tres años siempre que haya cultivado la mitad cuando menos de su terreno.

Se llama la atencion de los agricultores sobre las grandes ventajas que les acuerda la ley citada. En primer lugar, acreditando que han cultivado la mitad por lo menos de su chacra gozaran de una rebaja de un 25 o/o de los fletes establecidos para el transporte de su produccion en los ferro-carriles del estado y en los de empresas particulares tambien si el gobierno lo consiguiese como ha obtenido ya de las principales.

En segundo lugar, los créditos que les acuerda el Banco de la Provincia gozaran de la pequeña amortizacion de 10 o/o al año, art. 25 Ademas no tendran que pagar contribucion directa ni otro impuesto alguno durante 3 años, art. 44 y finalmente las escrituras se otorgaran en papel simple, art. 42.

Conviene advertir que una misma persona no podra adquirir mas de 300 hectareas, art. 40, durante los 3 años en que estan obligados a cultivarlas.

El centro agricola Félix F. Lynch está ventajosamente situado, casi a iguales distancias del pueblo de Chacabuco, 6 leguas del Salto, de Bujes, de Junin y de la estacion Echevarria (F. C. de la P.) y la linea de San Pedro a Mar del Plata, concedida al Sr. Morra y próxima a construirse pasara por la colonia 6 de lo contrario enviara un ramal hasta ella segun arreglo celebrado con los propietarios.

La estacion estara situada en el medio del pueblo a fundarse.

El terreno es alto, de buena tierra y sin desperdicio, especial para el cultivo del trigo y del maiz.

Al mismo tiempo, remataremos sin base, el arrendamiento por un año de los lotes contiguos a los que vamos a vender.

El pago del arrendamiento se efectuara la mitad adelantado y la otra mitad tres meses despues de levantada la cosecha.

El remate se efectuara en Chacabuco en casa de los Sres. Blanco y Villar.

Nota: La venta de los lotes de pueblo comenzara cuando principie la construccion del ferro carril de San Pedro a mar del Plata.

Nota: el ferro-carril al Pacifico sale de la estacion Central a las 7 y 30 a. m.
